

TWIST Power outside the box

TWIST is a power strip for the kitchen, office, lounge and additional, personalised uses. With its compact design and low installation depth, TWIST is easily integrated in a space-saving way into kitchen worktops or desks, for example. Because the power cable is routed close to the housing, the installation depth is only around 40 mm, so the unit can be easily installed above a drawer.

Various surface versions allow TWIST to fit effortlessly into classical, modern concepts – in addition to lively shape and colour concepts. After use, simply rotate the cover and the socket outlets disappear underneath it.

TWIST has achieved national and international renown with its outstanding aesthetics and design. This BACHMANN product has already won numerous prestigious design awards.

The benefits at a glance

- · Sophisticated twisting lock
- · Low installation depth (approx. 40 mm)
- · Compact design (H x Ø: approx. 42.5 x 115 mm)
- · Space-saving cable routing
- · Quick and easy to install
